

**TrainingTutor 11143**(00:00:57):Hi Nevaeh, It's great to connect with you.

**Nevaeh \_11143**(00:01:22):Hi

**Nevaeh \_11143**(00:01:29):how are you?

**TrainingTutor 11143**(00:01:42):I'm great, and I hope you're too.

**Nevaeh \_11143**(00:02:14):Yeah, I'm good.

**TrainingTutor 11143**(00:02:30):We're going to have an exciting session. Today, we will explore the topic "Adding Whole Numbers."

**Nevaeh \_11143**(00:02:51):Oh, that sounds good.

**Nevaeh \_11143**(00:03:02):I've read about it but don't remember them, though.

**TrainingTutor 11143**(00:03:02):Sounds good.

**TrainingTutor 11143**(00:03:15):Oh, no worries; I got you. Let me help you understand it in the easiest way possible.

**TrainingTutor 11143**(00:03:39):The first question is a word problem.

**Nevaeh \_11143**(00:04:09):Okay.

**TrainingTutor 11143**(00:04:12):It describes that Elliot ate 3 slices of pizza, and his friend Avelina ate 4.

**TrainingTutor 11143**(00:04:33):We need to find out how many pizza slices they ate together.

**Nevaeh \_11143**(00:05:08):Okay, so we have to add both slices of pizza.

**TrainingTutor 11143**(00:05:14):You're very focused and attentive; here's 1 point for that!

**Nevaeh \_11143**(00:05:35):Cool! Thanks.

**TrainingTutor 11143**(00:05:37):Next, we need to add 3 and 4.

**TrainingTutor 11143**(00:05:46):Let's line up the numbers vertically.

**Nevaeh \_11143**(00:06:12):It's 7.

**Nevaeh \_11143**(00:06:24):???

**Nevaeh \_11143**(00:06:33):Righttttttt

**TrainingTutor 11143**(00:06:38):Excellent! You got another point for your perfect answer.

**Nevaeh \_11143**(00:07:01):I'm happy to learn this way.

**TrainingTutor 11143**(00:07:23):Sounds great! Let's start working on the next question.

**TrainingTutor 11143**(00:08:11):The next is to find the sum of 130 and 45.

**Nevaeh \_11143**(00:08:16):Okay, tutor.

**Nevaeh \_11143**(00:08:31):I'm having trouble with adding large numbers.

**Nevaeh \_11143**(00:08:42):It just seems so confusing.

**TrainingTutor 11143**(00:08:47):That's okay.

**TrainingTutor 11143**(00:09:33):Adding large numbers can be tricky initially, but it's all part of the learning process. Let's work through this together.

**TrainingTutor 11143**(00:09:50):First, let me know what's been giving you trouble.

**Nevaeh \_11143**(00:10:19):I keep getting the wrong answers, and it's frustrating.

**TrainingTutor 11143**(00:10:56):Let's tackle that one. What do you think the first step is when adding these numbers?

**Nevaeh \_11143**(00:11:35):I think the first step is to write down the zero in one place.

**TrainingTutor 11143**(00:12:10):Okay, it seems like you forget to align the numbers properly as per its place value.

**TrainingTutor 11143**(00:12:26):Let me show you how to line up the given numbers vertically.

**Nevaeh \_11143**(00:12:53):Oh, I see.

**Nevaeh \_11143**(00:13:23):So, we need to put 5 on ones place and 4 on tens place.

**TrainingTutor 11143**(00:13:41):Exactly! You've got it.

**TrainingTutor 11143**(00:14:12):Now, let's move on. What's next?

**Nevaeh \_11143**(00:14:54):I guess you add the ones place, so  $0 + 5$  is 5.

**TrainingTutor 11143**(00:15:19):You're correct. Let's develop further.

**Nevaeh \_11143**(00:16:17):Okay.

**TrainingTutor 11143**(00:16:23):Next, let's start adding the tens place.

**TrainingTutor 11143**(00:16:54):Let me know the sum of 3 and 4.

**Nevaeh \_11143**(00:17:26):Hmm, I got 7.

**TrainingTutor 11143**(00:17:56):Awesome work!

**TrainingTutor 11143**(00:18:14):You're adding all the numbers correctly.

**TrainingTutor 11143**(00:18:40):Now, we've to add the hundreds place.

**Nevaeh \_11143**(00:18:45):Oh, I see,

**Nevaeh \_11143**(00:18:55):Let me do it.

**TrainingTutor 11143**(00:19:15):That's the spirit!

**Nevaeh \_11143**(00:19:48):so the answer after adding all the numbers is 175.

**TrainingTutor 11143**(00:20:24):Fantastic! See, you're making progress already. Another point for your answer.

**TrainingTutor 11143**(00:21:05):Remember, it's okay to make mistakes along way, that's how we learn.

**TrainingTutor 11143**(00:21:46):I'm impressed with how your grasped the concept. Keep practicing, and you'll get even better.

**Nevaeh \_11143**(00:22:41):Thanks for your help and for being patient with me.

**TrainingTutor 11143**(00:23:10):Happy to assist you! I'm here to support you in your learning journey.

**TrainingTutor 11143**(00:23:48):Feel free to reach out if you have more questions or need further assistance. Keep up the great work!

**Nevaeh \_11143**(00:24:03):Sure,

**TrainingTutor 11143**(00:24:13):Here is the first independent question.

**TrainingTutor 11143**(00:24:24):Start showing your work on the whiteboard.

**Nevaeh \_11143**(00:24:47):Sure, I will do that.

**TrainingTutor 11143**(00:25:02):Sounds good!

**TrainingTutor 11143**(00:25:34):That's a good start.

**TrainingTutor 11143**(00:26:22):You're doing great! Keep pushing yourself!

**Nevaeh \_11143**(00:26:25):The final answer is 52 by adding 34 and 18.

**Nevaeh \_11143**(00:26:40):When we add 4 and 8, it is 12.

**TrainingTutor 11143**(00:26:52):Keep going!

**Nevaeh \_11143**(00:27:00):I need to carry over 1 to the tens place; if we add finally, we get 52.

**TrainingTutor 11143**(00:27:32):Way to go! Two more points for your correct answer!

**Nevaeh \_11143**(00:27:50):thank you 😊

**TrainingTutor 11143**(00:28:13):You're welcome.

**TrainingTutor 11143**(00:29:30):Let's move on to the Exit Ticket questions, where you can show your work on the whiteboard, and remember to mark the correct option.

**TrainingTutor 11143**(00:29:54):Here comes your first exit ticket question.

**TrainingTutor 11143**(00:30:57):Go through it and start solving the question.

**Nevaeh \_11143**(00:31:18):Sure!

**TrainingTutor 11143**(00:31:48):Well, look at you go!

**TrainingTutor 11143**(00:32:52):That was an impressive work on the whiteboard.

**Nevaeh \_11143**(00:33:05):The answer to the given question is 0 because anything added to the 0 becomes itself.

**TrainingTutor 11143**(00:33:27):You figured it out. Plus, 3 points for the outstanding answer.

**Nevaeh \_11143**(00:33:51):Thank youuuuuuuuu

**TrainingTutor 11143**(00:34:09):Congratulations! You've mastered this topic by scoring 100% on Exit Tickets.

**Nevaeh \_11143**(00:34:53):Thank you for a good session.

**TrainingTutor 11143**(00:35:15):Anytime! Remember to fill out the feedback form before you leave.

**TrainingTutor 11143**(00:35:21):Have a nice day!

**Nevaeh \_11143**(00:35:31):I will do.

**Nevaeh \_11143**(00:35:38):Byeeeeeeeeee

**TrainingTutor 11143**(00:35:40):Bye, Take care!
